REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed hermetically-enclosed generator with a cooling apparatus and gaseous coolant flow circuit including, inter alia, baffles at the ends of the air gap and no fan located in the enclosure. The prior art, in particular GB '875, Saepper and GB '754 all teach similar cooling apparatus; however, all have fans or ventilators in their respective enclosures. Applicant's invention pertains to a fanless cooling system reliant upon the auto-ventilation of the rotor (specification, paragraph 16).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
